TECHNOLOGY THAT DOMINATES

Stainless Steel Double Bowl

P. O. Box 1010, Ruston, LA 71273-1010
Customer Service: 1.800.637.6485

- **Reinforced Safe-T Rim**
  Our unique one-step manufacturing technique creates smooth, rolled edges to protect from cuts during handling and to strengthen the rim.
- **Integrated Installation Rails**
  Our manufacturing process creates and forms installation rails as the bowls are pressed, as opposed to the traditional welding method of attaching them separately.
- **No Welding**
  Our patented Press-Fit assembly or One-Piece Drawing eliminates the need for traditional welding. The result is a superior quality sink with no unsightly grind marks or center seam welds to buff or grind away.
- **Sound-Deadening Pads**
  Pads cover the bottom of the bowl to insulate from excess noise and vibration.
- **Easy Installation**
  Pre-Attached clips make installation simple. Simply drop in the sink; push side of clip in, pull down to lock and then slowly tighten the clip.

Made with premium grade "AISI" 304 stainless steel.
