Here are some more typical savings:

Job Size	Shingles Saved	Nails Saved
1 SQUARE	4	16
20 SQUARE	80	320
30 SQUARE	120	480

NOTE: All calculations are based on typical shingle length of 39-3/8" / 64 shingles per square

The **larger** the shingle, the bigger the **savings.**

- ✓ Roofers use fewer shingles to cover more roof in less time.
- ✓ Fewer nails — and less labor — needed to install each square.
