Because Ply Gem Stone is crafted to mirror nature's most sincere variations, inconsistencies in stone hue and texture can be expected. Every effort has been made to ensure the stone colors on our printed and online materials are as close to the actual stone as possible. However, please be advised, photography, printing, and viewing conditions may alter perception of color. Consult your distributor or sales representative for product samples. Ply Gem reserves the right to alter, modify, or delete items from time to time without notice.

Ply Gem Stone, Ply Gem, and the "Natural Perfection in a Hand-Crafted Stone Veneer" slogan are trademarks of Ply Gem Industries, Inc. and/or its subsidiaries.

TRUE STACK

STRIKING STACKED STONE, MADE EASY.

TRUE STACK

A MODULAR SYSTEM FOR ADDING DRY STACK STYLE.

True Stack from Ply Gem Stone combines the rugged appeal of stacked stones with slender, horizontal shapes, which makes it ideal for traditional Craftsman or Prairie architectural styles, as well as contemporary designs. Beautifully engineered, the stacked stone shapes are molded into the face of simple 2" to 4" deep blocks to make installation easier and faster.

- Popular rustic look available in seven colors
- Available in 9", 13" and 18" long panels with matching corner stones
- The back of the stone features a 1/4" groove around all sides, creating a 1/2" gap for mortar to fill
- Works well in interior applications such as a fireplace or accent walls
- Ideal for commercial and residential applications with wide or tall expanses

For more information including CSI specifications, call 1-877-804-1670 or visit plygemstone.com.

AN EASY CHOICE FOR YOUR NEXT DESIGN PROJECT.

True Stack modular dry stack stone is an ideal choice wherever a rustic look is desired. It adds a natural warmth to both modern and traditional styles, with the added benefit of being easy to apply. Like all Ply Gem Stone products, it meets strict ICC standards and is backed by a 50-Year Limited Warranty.

SEVEN BEAUTIFUL COLOR OPTIONS.

Colored by skilled artisans with a base color and mix of accent colors to replicate the veined and marbled look of natural stone.

EXCLUSIVE MORTAR GAP ALLOWS FOR TIGHTER FIT AND NEAR SEAMLESS APPEARANCE.

1/4" groove creates 1/2" gap for mortar to fill

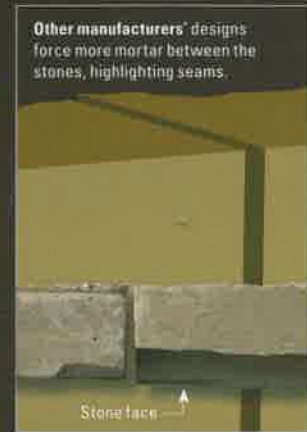

Mortar fills in along the back of the stones for a secure grip with minimal cleanup. Stones fit tightly together without the look of mortar joints.

The lack of a 1/4" groove in other manufacturers' stones pushes mortar between each piece, resulting in visible seams and more to clean up.

Ply Gem Stone's unique mortar gap allows for tighter fit, minimizing seams.

Stone face

Other manufacturers' designs force more mortar between the stones, highlighting seams.
